## Home Builders Association Announces Winners of 2020 Synergy Awards

Fort Washington, PA- The Home Builders Association of Bucks & Montgomery Counties (HBA) congratulates the Winners of the 2020 Synergy Awards. The Synergy Awards honor excellence in construction, sales, marketing, and design of new homes in Bucks and Montgomery Counties. HBA Executive Vice President Carla Zapotek said, “This event honors the best in our industry and recognizes their exceptional efforts throughout the year. Although we were not able to gather in person at our Annual Awards Ceremony Gala, it was amazing to see close to 200 members show their support for one another on a Virtual Zoom celebration.”

The 2020 Synergy Awards marks the HBA’s 31<sup>st</sup> year recognizing the achievements of their members. They have been collaborating with the Home Builders Association of Chester & Delaware Counties, since 2012. Winners are announced at an annual gala with over 400 attendees, but due the current circumstances the honors were announced live via a virtual platform.

Some of this year’s local builder winners include WB Homes Inc, for Community of the Year, Founders Reserve, DeLuca Homes for the Energy Efficient Home of the Year and Worthington Shagen Custom Builder Inc, for their Riverside Custom Home Addition. In our Design, Sales and Marketing categories, we had Kieffer’s Appliances for their “Hot Damn” advertising campaign, Linda McManus Images for Best Architectural Photograph, Westrum Development Company for corporate website and Stampfl Associates for their Modern Farmhouse Architectural plan. These and all the winners represent outstanding work in individual homes and communities in Bucks and Montgomery counties.

A complete list of winners and can be found on the HBA website at [www.HBAhomes.com](http://www.HBAhomes.com).

The Home Builders Association of Bucks and Montgomery Counties (HBA) is a professional trade organization comprised of more than 400 companies dedicated to promoting, educating, and advocating the advancement of the residential construction industry while serving our community. The HBA advocates for public policy initiatives and sustainable building techniques that balance the need for strong economic growth and environmental protection. The HBA is dedicated to providing and protecting the American dream of home ownership for current and future generations.
